

Multiplier Event for Maltese Start-ups 2016

Malta Business Bureau > Business News

In today's really competitive economy, start-ups are faced with various challenges. In fact, studies show that more than 50% of new businesses fail within the first 5 years of their business lifecycle. Additionally, there has been a lack of anticipation of skill requirements and formative routes for new entrepreneurs.

As a pan-European strategic partnership project, VET4Start-UP encourages the spirit of entrepreneurship via several activities but mainly by imparting skills in a new form and content-set. This project aims to educate and train anyone interested in start-ups thanks to a new e-learning platform MOOC (Massive Open Online Course) and other useful and tailor-made materials and resources. VET4Start-UP seeks to improve the level of key competences and skills needed by new entrepreneurs through Vocational and Educational Training.

The VET4Start-UP Erasmus+ Project is organizing a multiplier event which will be taking place in Smart City Malta on 7th November 2016.
